

***Bryant***  
WHERE LUXURY MEETS SPORT

## THE BOAT IS THE DESTINATION

---

At Bryant, we strive to make your boat ownership an effortless experience you'll want to relive again and again. One that allows you to be fully present teaching someone to wakesurf, get up on a ski for the first time or cruise with your loved ones out on the water. Each boat that goes out our factory door is built with your carefree days in mind. No matter where you are, stepping onboard a Bryant is exactly where you're meant to be.

## BUILDING BOATS SINCE 1960

---

Jim Bryant, a man with an aptitude for innovation, was one of the first who began crafting fiberglass hulls. Bryant Boats was founded with the desire to create a best-in-class performance luxury boat. Out of that passion, Bryant brought to market the industry's first sterndrive boat for wakesurfing.

During our 59-year history, through meticulous craftsmanship, passionate design and continuous innovation, our aspiration has been for you to enjoy every minute you spend aboard your Bryant. While we design and build boats that outperform our competition, our goal is that you, your family and friends create memories that last a lifetime.

## THE BRYANT DIFFERENCE

Our manufacturing facility located in Sweetwater, Tennessee, is dedicated to producing quality boats for you, your family and friends to enjoy. Our team of skilled craftsmen and women have boat building in their DNA. This is evident when you see the overall fit, finish and refined touches that are in every Bryant. We use only the highest-quality materials and we're dedicated to building boats that will keep you on the water for years to come. Whether you're cruising, surfing or enjoying your time on the water, summer days are always better in a Bryant.

## NEW FEATURES FOR 2020

Our design team here at Bryant Boats is constantly looking for ways to make your boating experience even better. For 2020, Standard/Options include: BryantVUE™, JL Audio® speakers, wireless phone-charging, Surf Edition, BryantCAM™, new gelcoat colors and vinyl colors.

Ready for the adventure at every level, the Bryant C1 was made for the watersports family that loves to have fun on the water and comfortably relax when you're not going to the extremes. With the standard Integrated Surf Tabs, Volvo Penta Forward Drive engine and 800 pounds of ballast, the C1 is set up for wakesurfing, wakeboarding and any other type of towed watersports activity you choose. The 8-foot-wide cockpit affords plenty of room to comfortably relax, so you and your crew can enjoy the watersports lifestyle.

This beautifully equipped 23-foot boat brings with it a generous amount of storage and lounge space, while boasting exceptional performance for all types of towed watersports. Powering the C3 is the Volvo Penta Forward Drive, along with the Integrated Surf Tabs and 1,200 pounds of ballast, that gives this Bryant Surf Edition an incredible wakesurf wave or wakeboard wake for any level of surfer or rider. Add these performance attributes to all the luxurious features and amenities, and the C3 Surf is ready to make lifelong memories for you, your family and friends for years to come.

Created for those looking to take on big waves and big wakes, the C7 Surf is the new flagship model in the Bryant line-up. Coming in at 27-feet in length, this boat comes with ample amount of space for a large crew and all their gear for a fun day on the water. In addition, this model easily handles big water with its deep hull design. The Volvo Forward Drive, Integrated Surf Tabs and 2,200 pounds of ballast make the C7 an exceptional wakesurf boat that delivers luxury and pure boating pleasure.
